Critics tell us that the perfection of art is to imitate nature. But how can we do so in dress when nature clothes herself without effort while we have to hustle for our apparel?

Candidates for governor continue to make sensational grand stand plays but the people are too busy about their own affairs to pay attention and the only applause is from professional claqueurs.

The per capita cost of government in this country has doubled in thirty years. If there had been a corresponding increase in the benefits of government to those who pay for it nobody would complain, but in this respect matters have grown worse instead of better.

Iowa and Nebraska have entered into an alliance to make war on flies and mosquitoes. This is a righteous cause and all true Christians, including Quakers, can heartily pray that victory may crown their efforts. Jesus said that Beelzebub, the Philistine god of flies, was "the prince of devils."

Have you noticed the remarkable change in the shape of people's faces? For two years past until recently the vertical median line has been growing longer and longer but now forehead and chin are drawing closer together and there has been a phenomenal expansion from ear to ear. The fine crop prospects has done it.

NEWS FROM THE NORTH END.

Gus Hedtke of near Edge, called on the Eagle while in the city this morning. He reports a fine rain Sunday and says they have as fine prospects for a big corn crop as he ever saw. Mr. Hedtke says the Bohemian citizens of Edge and Wheelock met yesterday with plows and scrapers and made a good crossing on Little Cedar on the old San Antonio road. The crossing was made in order to give them a good road for hauling out lumber from Bryan for some improvements they are going to make.

Mr. Hedtke also reported that Dr. E. F. Gregory of Edge, lost a horse by lightning on Sunday.

Senator Clay says the tariff discussion will last until August anyhow and maybe until September. Since congressmen are paid by the year it don't increase the cost much for them to put in the time scrapping. Nobody is required to read the Congressional Record and a thrifty man can cut down his fuel bill by saving it for stovewood.

TRIAL OF BROUGHTON BRANDENBURG.

Special to the Eagle.

New York, June 15.—The case of Broughton Brandenburg, the magazine writer, was called for trial today in the criminal branch of the Supreme Court. The charge upon which Brandenburg is to be tried is one of grand larceny in the second degree. The charge hinges upon the sale by Brandenburg to a newspaper of an article purporting to have been written and signed by the late Grover Cleveland, but which, it was charged, was not genuine.

The published article caused a lot of talk in the heat of the recent presidential campaign, as the substance of it consisted of Mr. Cleveland's alleged reasons why Mr. Taft should be elected to the presidency. Brandenburg, it is said, received \$500 from the newspaper for the story. Upon its publication doubts were expressed by Mrs. Cleveland and by intimate friends and associates of the late President as to the genuineness of the article. An investigation was started and the result was that Brandenburg was indicted. When the case was first called for trial last February it was found that Brandenburg had forfeited his bail and left the city. Subsequently he was found in San Francisco and returned to New York for trial. In the meanwhile his troubles were added to by his connection with the Cabanne divorce case in St. Louis, in which Mr. Cabanne obtained a divorce from his wife, naming Brandenburg as co-respondent.

Try This This Summer

There will come many times this summer when the heat will be almost unbearable. And your thirst will refuse absolutely to be quenched by plain water, or the average sweet soda fountain drinks or bottled beverages.

DRINK

Coca-Cola

You will be surprised and delighted at its cooling effect and at how completely it will quench your thirst.

You will find it as refreshing and delicious as a summer drink as coffee is a winter drink. And it's as pure and wholesome—as harmless—as the tea, or coffee, or milk, or cocoa you drink at the table every day of your life.

But do not be deceived into accepting a substitute—refuse any other drink that claims to be as good or better. Insist on and

We beg leave to report to you the result of analysis of Coca-Cola. We purchased in the open market an original package of one gallon of Coca-Cola. The contents of this jug were submitted to a very careful and exhaustive analysis for carbon and alcohol, and we failed to find any trace of either. Carbon was found to the extent of 2 of one per cent. The amount of caffeine contained in one ounce of Coca-Cola used for making one glass of the prepared drink is less than one-half that is contained in a cup of coffee of average strength.

Very respectfully submitted,
